

Most Americans forgot or never knew that World Trade Center 1, North Tower was bombed on February 26, 1993. Or, that FBI Director William Sessions was summarily fired by President Bill Clinton because he had launched an internal investigation as to who in the FBI aided and abetted that crime.

The PANY&NJ and Bush Administration lied to America and the World about September 11, 2001, why it happened and what the real motive and objective was in blaming it all on Afghanistan.

The US had been conspiring since 1990 to go after the Caspian Basin region and Afghanistan holds the key position in that region to get oil and natural gas to an ocean port.

US invasion scheme of the now CIS region of the USSR:
<https://time.com/archive/6717297/soviet-union-operation-steppe-shield/>

+/- 2,753 died at World Trade Center, 184 at Pentagon on September 11, 2001. However, even more than that have died since due to asbestos induced cancer as First Responders, WTC tenants, post-9-11 clean up crews, residential and business tenants in the area of WTC.

Read on to learn why.

Plaintiffs Group A bringing civil & criminal lawsuit on behalf of:

Plaintiffs Group B – the survivors of all +/- 2,753 allegedly killed at World Trade Center and 184 killed at Pentagon. Those who allegedly died in the 4 jet airplanes (Flights 11 (WTC 1), 175 (WTC 2), 77 (Pentagon) and 93 in that order) is a major problem for the Defendants; and

Plaintiffs Group C – all living First Responders and/or survivors and those involved in post-9-11 clean up whether living, battling asbestos induced cancer or deceased. This group includes WTC tenants as of September 11, 2001 that were exposed and have survivors; and

Plaintiffs Group D – all WTC area residents and businesses willfully and negligently exposed to asbestos whether living, battling asbestos induced cancer or deceased due to asbestos induced cancer and have survivors; and

Plaintiffs Group E – all US military personnel sent to be maimed or die for a lie and those permanently harmed by anthrax vaccines, whether living, maimed due to combat injuries or deceased.

Chronology 1 – PANY&NJ, Trans-Hudson Corporation, Newark New Jersey, 1987-November 2002.

- There were lawsuits in New Jersey and New York so a person must pay attention.
- In 1987, the PANY&NJ filed a lawsuit regarding asbestos liability in the World Trade Center complex of buildings. That lawsuit was filed in New Jersey Superior Court, Law Division in Newark, NJ, not in New York courts. The original lawsuit was PANY&NJ v. Allied Corp.
- In 1991, a parallel lawsuit was filed in US District Court Newark NJ against the PANY&NJ insurance consortium as PANY&NJ, Trans-Hudson Corporation v Affiliated FM Insurance, et al regarding asbestos removal and reimbursement for work done in the highest 10 floors of office space of WTC N1, North Tower. Those 10 floors were where the first alleged hijacked jet (Flight 11) hit the offices of Cantor Fitzgerald, Marsh McLennan, and Nishi Nippon Bank of Japan.
- On February 26, 1993 the first bombing of WTC 1 North Tower happened. FBI Director William Sessions was summarily fired by Clinton because Sessions had initiated an internal investigation as to who in the FBI facilitated that bombing. That information came out interrogating the suspect and during the WTC bombing trial as indicated on Slide 1.
- In 1995, the US District Court SDNY ruled against the plaintiffs PANY&NJ v Allied Corp, et al again more along the lines of “construction defects”. Decision Date: 29 March 1995; Docket Number No. 91 Civ. 0310.,91 Civ. 0310; Citation 914 F. Supp. 960, Parties: PORT AUTHORITY OF NEW YORK AND NEW JERSEY, et ano., Plaintiffs, v. ALLIED CORPORATION, et al., Defendants. Court: U.S. District Court — Southern District of New York

Chronology 1 – PANY&NJ, Trans-Hudson Corporation, Newark New Jersey, 1987-November 2002.

- The PANY&NJ plaintiffs appealed the May 17, 2001 loss in New Jersey to Third Circuit US Court of Appeals in Philadelphia PA and lost a second time. No. 01-2513. Decided: November 14, 2002 - See more at: <http://caselaw.findlaw.com/us-3rd-circuit/1113815.html#sthash.MLBDFvvD.dpuf>
- However, on June 5, 2000 the US District Court had already issued a partial summary judgement in favor of Affiliated FM Insurance, et al. The PANY&NJ already knew it was probably going to lose all of the lawsuits on the asbestos issues and did.
- May 17, 2001 was months before September 11, 2001 and the November 14, 2002 appeal order was over a year too late to stop George Bush and Tony Blair from attacking Afghanistan as the alleged culprits who had nothing to do regarding September 11, 2001.
- July 24, 2001 Larry Silverstein and Frank Lowy sign 99-Year lease on WTC Buildings 1 through 6. WTC Building 7 purportedly already owned by Silverstein.
- The next slide is the heading of the final order dated May 17, 2001 against the PANY&NJ and in favor of Affiliated FM Insurance, et al. This group of defendants were US and foreign insurance, reinsurance companies and consortiums.

The World Trade Center was doomed June 5, 2000 partial summary judgment to final judgment order on May 17, 2001 and 2,753 people and WTC 1-7 plus hotel were executed on September 11, 2001.

- PORT AUTHORITY OF NY AND NJ v. AFFILIATED FM INS. CO. No. CIV.A. 91-2907(JWB).
- 245 F.Supp.2d 563 (2001)
- The PORT AUTHORITY OF NEW YORK & NEW JERSEY and Port Authority Trans-Hudson Corporation, Plaintiffs,
- v. AFFILIATED FM INSURANCE COMPANY, et al., Defendants.
- United States District Court, D. New Jersey.
- Order dated May 17, 2001.
- *On June 3, 1991, the plaintiffs the Port Authority of New York and New Jersey, and Port Authority Trans-Hudson Corporation (collectively "the Port Authority" or "plaintiff") filed this action in the Superior Court of New Jersey, Law Division, Essex County, against various insurance companies that had issued first-party property insurance policies to the Port Authority between 1969 to 1988. In this suit, the Port Authority seeks to recover costs and expenses it incurred and would continue to incur from asbestos management and abatement activities in its New York and New Jersey facilities.*
- *On May 7, 1996, the Court entered Case Management Order No. 1. due to the size and complexity of the case, the Court divided the litigation into three cumulative phases. In Phase I, the parties would address whether coverage existed under any of the first-party insurance policies named by the Port authority in its Complaint.*²
- *In mid-2000, the Court considered an initial round of summary judgment motions directed to certain coverage issues. By its Opinion and Order ("the First Summary Judgment Opinion") of June 5, 2000, this Court granted partial summary judgment against the Port Authority in favor of the certain defendants, and others, on the grounds that plaintiffs' claims for losses under certain insurance policies were barred due to the Port Authority's breach of contractual provisions requiring timely notice and suit within a prescribed period, and the non-issuance of an insurance policy by a particular defendant. One of the determinations in that Opinion was that, for purposes of provisions in the policies pertaining to notice of loss and suit limitations, the Port Authority was aware of its asbestos losses at the latest when it filed a lawsuit against asbestos manufacturers and distributors in 1987 ("the Allied lawsuit").*

Chronology 2 – The Caspian Basin region oil and natural gas, and absolutely necessary pipeline across Afghanistan as TAP, Turkmenistan-Afghanistan-Pakistan port city of Gwadar, Balochistan Province. The Caspian Basin region is landlocked but holds vast amounts of oil and natural gas.

- January 1992: Gas exploration rights for Yashlar block in eastern Turkmenistan awarded to Argentine firm; Bidas Production profits to be split 50-50 between Bidas and Turkmenistan government.
- February 1993: Bidas awarded Keimir Oil and Gas Block in western Turkmenistan. 75-25 split in profits, in favor of Bidas.
- February 26, 1993. WTC 1 North Tower bombing happened.
- July 1993. Bill Clinton fires FBI Director William Sessions, a former US District Court judge.
- 1995 Bidas Corporation meets Taliban for first time to commence negotiations.
- 1995 Unocal and US Government attempting to pressure Taliban to abandon contract negotiations with Bidas and pressure Turkmenistan regarding Bidas contracts.
- October 1995: President Niyazov (Turkmenistan) signs agreement in New York with Unocal/Delta (Saudi investors). Turkmenistan starts jerking Bidas around on its Oil Contracts with that government.
- Jan. 1996: Bidas signs agreement with Taliban and General Rashid Dostum for Trans-Afghanistan pipeline. Dostum is an Uzbek holdover after the USSR-Afghan War 1980-1988.

Chronology 2 – The Caspian Basin region oil and natural gas, and absolutely necessary pipeline across Afghanistan as TAP, Turkmenistan-Afghanistan-Pakistan port city of Gwadar, Balochistan Province.

- Feb. 1996: Bridas v. Unocal, Delta Oil, et al, \$15.0 billion interference of contract lawsuit filed in Texas State Court, 268th District Court, Fort Bend County, Texas, Trial Court Cause No. 94,144. Dismissed, Bridas appealed and lost, re-filed as \$495,000,000 arbitration claim. Remember “Delta Oil, Saudi”. This lawsuit reveals tortious interference of contract in both Turkmenistan and Afghanistan, unnamed was US government itself during Clinton Administration. [emphasis added].
- March, 1996: U.S. Ambassador to Pakistan, Tom Winston Simons, urges Bhutto to give exclusive rights to Unocal. Bhutto offended and demands apology. Clinton Admin interference that apparently involved Zalmay Khalilzad lobbying for Unocal and US. Khalilzad was nicknamed “The Butcher of Bosnia” for his work leading up to US-NATO bombing of Serbia in 1999.
- Nov. 1997: Unocal tries to woo Taliban away from Bridas and are rejected by Taliban. (Delta, Saudi). Probably Afghan-born Zalmay Khalilzad involved to lobby for Unocal since he sold out Afghanistan many decades ago.
- Aug. 1998: Clinton launched cruise missiles at Afghanistan. Hitting Al Qaeda or “warning shots” to bust up that Bridas contract? Zalmay Khalilzad involved in Bosnia and Afghanistan, later Iraq 2003.

Chronology 2 – The Caspian Basin region oil and natural gas, and absolutely necessary pipeline across Afghanistan as TAP, Turkmenistan-Afghanistan-Pakistan port city of Gwadar, Balochistan Province.

- January 20, 2001: George W. Bush and Richard B. Cheney are sworn into office as President and Vice President of the United States.
- Spring 2001: US Army 10th Mountain Division mobilized to prepare for invasion of Afghanistan.
- Spring 2001: Secretary of Defense Donald Rumsfeld and CENTCOM commanding General Tommy Franks were before Congress Armed Services Committee reviewing the overall CENTCOM mission. When CENTCOM commander was asked what the primary mission was in Afghanistan the immediate reply was *“the pipeline and access to the regions resources.”* Rumsfeld quickly interrupted to shift the conversation back to defeating terrorism and the “Hunt for bin Laden”. Osama bin Laden was never on the FBI “Top 10 Most Wanted” list due to September 11, 2001.
- May 17, 2001: PANY&NJ loses the asbestos lawsuit in US District Court, Newark NJ.
- July 24, 2001: “Lucky Larry” Silverstein and Australia real estate developer Frank Lowy sign 99-Year lease on asbestos plagued WTC 1 thru 6. WTC 7 had asbestos problems, too.

Chronology 2 – The Caspian Basin region oil and natural gas, and absolutely necessary pipeline across Afghanistan as TAP, Turkmenistan-Afghanistan-Pakistan port city of Gwadar, Balochistan Province.

- August 2, 2001: Bush renews “negotiations”, bullying, threatening the Taliban with military force.
- August 6, 2001: Bush asleep at the helm regarding President’s Daily Briefing [PDB] and attack on U.S by “jet airplanes” and “Islamic radicals”. That was a CIA false flag along with Saudi GDI [General Directorate of Intelligence] according to FBI. See Canestraro chronology and link to Declaration.
- Sept 9, 2001: The most powerful Pashtun warlord in Afghanistan, Ahmad Shah Massoud is assassinated by a cameraman / bomb that was allegedly recruited by the USA, probably CIA Special Activities Division. The USSR army nicknamed Massoud “The Lion of Pansjhir” his army was so lethal. He told Bush he was not welcome to invade Afghanistan for the Bidas pipeline that USA was not welcome to own or control.
- 10 Sept 2001: “The Strategery” is inadvertently revealed at a prophetic time in history. It does not seem so, but it is a “smoking gun”. In Chapter 3, page 97, the Schwarz book revealed a comment from an energy expert that came out September 10, 2001, the day before September 11, 2001.
- ***“Most experts agree that the Caspian Basin and Central Asia are the keys to energy in the 21st century”,*** said energy expert James Dorian (Oil & Gas Journal, 9/10/01), ***“Those who control the oil routes out of Central Asia will impact all future direction and quantities of flow and the distribution of revenues from new production.”*** [Operation Steppe Shield objective of George H W Bush since at least 1990. Refer to TIME magazine article link.]

Chronology 2 – The Caspian Basin region oil and natural gas, and absolutely necessary pipeline across Afghanistan as TAP, Turkmenistan-Afghanistan-Pakistan port city of Gwadar, Balochistan Province.

- 10 Sept 2001: Secretary of Defense Donald Rumsfeld stated in a Pentagon press briefing that the Pentagon could not account for \$2.3 trillion dollars. Full discovery in this lawsuit will reveal to the Court and Jury exactly which group in the Pentagon were targeted for elimination (i.e., murdered) the next day September 11, 2001.
- 11 Sept 2001: Larry Silverstein has 8:00am meeting with bomb experts from Fort Monmouth AMC New Jersey to prevent a bombing terrorist attack on his WTC 7 building. That meeting was arranged by Secret Service field office NYC and was called off. The bomb experts watched 9-11-2001 unfold from a nearby café. WTC 7 was already wired and explosives set to be destroyed same day.
- 11 Sept 2001: WTC and Pentagon attacked, +/- 2,753 dead NYC and 184 dead at Pentagon.
- 11 Sept 2001; At approximately 5:00pm, the BBC announced “*We have just learned that the Salomon Building has collapsed*”. The WTC Building 7 was still standing in the background during the live television announcement.
- 11 Sept 2001: At approximately 5:20pm the WTC 7 is brought down in an obvious controlled demolition. Silverstein gave the order “pull it”, a controlled demolition term.
- 11-12 Sept 2001: A flight departs Kosovo (+6 hrs. NYC time) with large crates that were delivered into Northern Afghanistan on September 12. The crates contained hundreds of millions of US dollars. Probable recipient General Rashid Dostum to renege on the agreement he signed with Bidas Corporation.
- 11-14 Sept 2001: Secret Service and Fort Monmouth AMC bomb disposal experts stay on WTC rubble site for 3 days searching for bombs that did not detonate. Bush was inbound to blame it on Afghanistan.

Chronology 2 – The Caspian Basin region oil and natural gas, and absolutely necessary pipeline across Afghanistan as TAP, Turkmenistan-Afghanistan-Pakistan port city of Gwadar, Balochistan Province.

- On October 7, 2001 the US and UK attacked Afghanistan and Taliban under a US War Plan designed, practiced and provisioned months before 9-11.
- Nov 22 2001: The following is copied and pasted from the Schwarz book (January 2004) as it appeared in a foreign newspaper and in the book, Chapter 3, pages 88-89. The link to this article was blocked on the Internet shortly after it was published and was posted on the newspaper website in English:
- 11:01 2001-11-22 - Bin Laden: Not all Americans are bad
- **“Mohammed Omar predicted the current campaign by the USA in Afghanistan 5 years ago, claiming that when the Taliban would not allow the US to build a pipeline they will begin to attack us, justifying it with Bin Laden.** [Plaintiff’s notice to the Court is those 5 years leading up to September 11, 2001 is when Bidas Corporation was under full assault from multiple US and Saudi parties to block the Bidas SAPIC TAP. Trans-Afghanistan Pipeline, Turkmenistan, Afghanistan, Pakistan to ocean port of Gwadar Pakistan.] [emphasis added].
- Omar’s words are reported by Hamid Mir, who made the last interview with Osama Bin Laden, who declared that he is not against the American people, only the politicians and the state.
- In the first interviews, Osama Bin Laden had declared himself against all the American people, but he had changed. He admitted that there were many good people in the United States and it was the politicians and State, which he despised. He told Mir that he had seen many western people on television protesting at the bombing in Afghanistan and concluded, “They are good people. They are not Moslems, but they condemn the bombing”.

Chronology 2 – The Caspian Basin region oil and natural gas, and absolutely necessary pipeline across Afghanistan as TAP, Turkmenistan-Afghanistan-Pakistan port city of Gwadar, Balochistan Province.

- 25 Nov 2001: The first alleged US casualty in Afghanistan is Johnny Micheal Spann, former US Marine captain, CIA Special Activities Division. He was killed at a prison uprising. The Plaintiffs maintain that the CIA Special Activities Division were in Afghanistan much earlier including the assassination of Ahmad Shah Massoud to round up Afghans that were totally and adamantly opposed to US presence in Afghanistan or pushing Bidas Corporation aside.
- 31 Dec, 2001: President Bush appointed a former aide to Unocal, Afghan-born Zalmay Khalilzad, as special envoy to Afghanistan. The nomination was announced nine days after the US-backed interim government of Hamid Karzai took office in Kabul.
- 8 Feb, 2002: Afghanistan's interim leader Hamid Karzai said he and Pakistani President Pervez Musharraf had agreed to revive a plan for a trans-Caspian gas pipeline from Turkmenistan to Pakistan. (Only route to do that is across Afghanistan exactly as Bidas Corporation planned.)
- 2002: At some point in 2002 the CPEC (China Pakistan Economic Corridor) Belt & Road project had completely blocked George W Bush and Tony Blair's objective of taking over the Bidas TAP that was to terminate at Gwadar, Balochistan Province Pakistan on the Arabian Sea. In short, Gwadar became a key Chinese port to route goods from Africa and the Middle east through the economic corridor across Pakistan to China.

Chronology 2 – The Caspian Basin region oil and natural gas, and absolutely necessary pipeline across Afghanistan as TAP, Turkmenistan-Afghanistan-Pakistan port city of Gwadar, Balochistan Province.

- At some point Bush had Pentagon “war planning team” trying to figure out how to reverse the CPEC agreement and left him and Tony Blair with no port for the pipeline they assumed they took over with lies and military force. Apparently some sane minds figured out an attack on Pakistan and China those 2 nations would team up with the Taliban and shred Bush and Blair’s scheme.
- 27 Dec, 2002: Central Asia pipeline deal signed; An agreement has been signed in the Turkmen capital, Ashgabat, paving the way for construction of a gas pipeline from the Central Asian republic through Afghanistan to Pakistan.
- 23 Feb 2003: OPIC agrees to fund the pipeline and Bush has guaranteed to protect it with U.S. troops (without telling the United States citizens). “23-02-03 Turkmenistan, Afghanistan and Pakistan (TAP) have signed a protocol for trans-Afghanistan Gas Pipeline Project... However, some recent reports had indicated that the United States was willing to police the pipeline infrastructure through permanent stationing of its troops in the region. The US ExIm Bank, the Trade and Development Agency (TDA) and the Overseas Private Insurance Corporation (OPIC) had also shown readiness to finance such a project, if leading American energy giants come forward.”

Chronology 2 – The Caspian Basin region oil and natural gas, and absolutely necessary pipeline across Afghanistan as TAP, Turkmenistan-Afghanistan-Pakistan port city of Gwadar, Balochistan Province.

- 9 Sept 2003: Bidas prevails at 5th Circuit, U.S. Court of Appeals after years of being jerked around in Texas courts. \$495 million arbitration award upheld. cited as 345 F.3d 347 (5th Cir. 2003).
- 22 Mar 2004: U.S. Supreme Court denies Writ of Certiorari, upholding 5th Circuit. State Concern Turkmenneft v. Bidas, 03-1018 (Remember, Unocal / Delta (Saudi owned) started this blockade, aided by Clinton and Bush Administrations and Texas judges. Also in bed with Amerada Hess [Delta / Hess] and board member Thomas Kean chairs the 9-11 Commission and Richard ben Veniste, Mayer Brown was representing Turkmenistan and Turkmenneft.
- The Texas defendants kept trying to run to US District Court Houston to vacate the ICC award of \$495,000,000 but lost. No. 04-20842, April 21, 2006, cited as 447 F.3d 411 (5th Cir. 2006)
- Has anyone heard a word about Bidas from Bush – Cheney or the 9-11 Commission? No?
- Wonder why? Cover up!

Chronology 3: Who really was the WTC Security Company?

- For years leading up to September 11, 2001 that company was supposedly Burns and Roe “Securacom”, until they were sued by SecuraComm of Pittsburg PA for trademark infringement.
- 1997 US District Court for the District of New Jersey - 984 F. Supp. 286 (D.N.J. 1997), November 21, 1997, 984 F. Supp. 286 (1997), SECURACOMM CONSULTING, INC., Plaintiff, v. SECURACOM INCORPORATED, KuwAm Corporation and Wirt D. Walker, III, Defendants/Third-Party Plaintiffs, v. Ronald S. LIBENGOOD, Third-Party Defendant. Civil Action No. 95-5393(DRD). United States District Court, D. New Jersey. Libengood was the founder of SecuraComm and should be shown as one of the Plaintiffs.
- In the final order against the Defendant Securacom, where they named the real Plaintiff Ronald S. Libengood and owner of SecuraComm as plaintiff and a third-party defendant, the US District Court judge DEBEVOISE, Senior District Judge made the following opening statement in the original order.
- ***“This action in one of its aspects is for trademark infringement and unfair competition brought under the Lanham Act and the statutes and common law of the State of New Jersey. In another disturbing aspect, this action is part of the ruthless abuse of the litigation process by an arrogant venture capitalist and his investment vehicle to prevent a trademark claimant from seeking to pursue his rights under his trademark. November 21, 1997.”***

Chronology 3: Who really was the WTC Security Company?

- First appeal to Third Circuit by defendant Securacom. Argued on **June 26, 1998**. Opinion Filed: January 20, 1999. Amended **February 8, 1999**. On Appeal from the United States District Court for the District of New Jersey, (D.C. Civil No. 95-cv-05393) (Senior District Judge: Honorable Dickinson R. Debevoise), See SecuraComm Consulting Inc. v. Securacom Inc., 166 F.3d 182 (3d Cir. 1999) ("SecuraComm Consulting I"), No. 99-5326. Argued: February 8, 2000. Filed **August 21, 2000**.
- Second appeal to Third Circuit by defendant Securacom. After the remand in 1999, the Defendants appealed again and kept the matter tied up in court until 2000 as indicated above and what follows below. On Appeal from the United States District Court for the District of New Jersey District Judge: Honorable Dickinson R. Debevoise (D.C. No. 95-cv-05393) (D.C. Civil No. 95-5393) (D.C. Civil No. 96-3247); SLOVITER, Circuit Judge.
- *"This appeal marks the second time the remedial portion of this trademark case has come before us. In the first appeal, defendants Securacom Incorporated, KuwAm Corporation, and Wirt D. Walker, III (collectively "Securacom New Jersey") sought reversal of the District Court's award of profits, treble damages, and attorney's fees after the court found that Securacom New Jersey had willfully infringed the trademark of SecuraComm Consulting, Inc. We reversed the award of profits and treble damages on the ground that the record did not support a finding of willful infringement and remanded as to the award of attorney's fees. See SecuraComm Consulting Inc. v. Securacom Inc., 166 F.3d 182 (3d Cir. 1999) ("SecuraComm Consulting I").*
- *On remand, the District Court again awarded attorney's fees and denied Securacom New Jersey's motion for the judge's recusal."*

Chronology 3: Who really was the WTC Security Company?

- As the foregoing nonsense was going on, the WTC security systems provider Stratesec already existed as a Delaware corporation years before they tried to put themselves forth as “Securacom” and was listed as a foreign corporation in 16 US states well before this SecuraComm v Securacom lawsuit. Some Stratesec foreign corporation registrations directly relate to September 11, 2001.
- For the record, Wirt Dexter Walker III is a Bush family relative. KuwAm Corporation was owned by Mishaly S. Sabah. His relative Nayirah al-Sabah at the age of 15, lied to the Congressional Human Rights Caucus about Iraq atrocities she did not see happen in Kuwait City, Kuwait because she was high school student and daughter of Kuwait Ambassador to the US. Her lies were used as justification to attack Iraq in 1991 during the George H W Bush Administration.
- Marvin P. Bush is brother of George W. Bush. He was on the board of directors of Houston Casualty Company, HCC. That name does not appear as defendant in PANY&NJ, Trans-Hudson Corporation v Affiliated FM Insurance, et al. HCC issued a public statement that they took a \$30 million loss due to September 11, 2001. Marvin P. Bush was also directly involved in Stratesec, Delaware corporation, the World Trade Center security company and 16 foreign corporation registrations in key states in the US that point back to WTC and September 11, 2001.

Chronology 3: Who really was the WTC Security Company?

- “The Nayirah testimony was false testimony given before the United States Congressional Human Rights Caucus on October 10, 1990, by a 15-year-old Kuwaiti girl who was publicly identified only as Nayirah at the time. In her testimony, which took place two months after the Iraqi invasion of Kuwait, she claimed to have witnessed Iraqi soldiers taking babies out of incubators at a Kuwaiti hospital before looting the incubators and leaving the babies to die on the floor. Nayirah's statements were widely publicized and cited numerous times in the United States Senate and by American president George H. W. Bush to contribute to the rationale for pursuing military action against Iraq. [Added by Plaintiffs, 1990 Desert Shield and 1991 Desert Storm, and the aborted “Operation Steppe Shield” to invade the USSR and reported by TIME magazine. Then in 2003, Defendant George Bush promotes “Project BioShield”.]
- She was the daughter of Saud Nasser Al-Saud Al-Sabah, the erstwhile Kuwaiti ambassador to the United States. Furthermore, it was revealed that her testimony was organized as part of a wider public relations campaign conducted by the Kuwaiti government-in-exile's Citizens for a Free Kuwait, which sought to encourage American military involvement against Iraq's occupation of Kuwait through coordination with the American public relations firm Hill & Knowlton. In the aftermath of the Gulf War, the Nayirah testimony came to be regarded as a classic example of modern atrocity propaganda.” That describes September 11, 2001, too.

Chronology 3: Who really was the WTC Security Company?

- Delaware corporation, first filing: STRATESEC INCORPORATED; Company Number: 2067181; Incorporation Date - **23 July 1985**;
- Delaware corporation, second filing for IPO: STRATESEC INCORPORATED; Company Number: 2837059; Incorporation Date: **22 December 1997**
- Stratesec is Delaware corporation with foreign corporation registrations in 16 US states.
- **New York:** Company Number 1659055; Status Inactive Dissolution By Proclamation / Annulment Of Authority; Incorporation Date: **14 August 1992**; Dissolution Date: **25 June 2003**
- **New Jersey:** STRATESEC INCORPORATED branch; Company Number: 0100387903; Incorporation Date **29 August 1988**; Company Type: Foreign For-Profit Corporation; Jurisdiction: New Jersey (US) Branch: Branch of out-of-jurisdiction company. (**Newark Airport, origin of Flight 93 that allegedly crashed in Pennsylvania.** Also, Fort Monmouth AMC, New Jersey.)

Chronology 3: Who really was the WTC Security Company?

- **Florida:** Company Number F94000004787; Status: Inactive; Incorporation Date: 15 September 1994; Company Type: Foreign for Profit; Jurisdiction: Florida (US); Branch: Branch of STRATESEC INCORPORATED (Delaware (US)); Inactive Directors / Officers: ALBERT GRAVES, vice president, ALBERT GRAVES, president, BARRY MCDANIEL, BARRY MCDANIEL, chairman, BARRY MCDANIEL, president, C T CORPORATION SYSTEM, agent, WIRT D WALKER, director.
- The largest alleged creditor and shareholder of Stratesec was ES Bankest, Miami FL. Stratesec default that triggered de-listing from AMEX caused 2 bankruptcy cases and multiple criminal lawsuits in SDFL US Courts. An SEC filing is proof of Stratesec – ES Bankest relationship.
- Virginia Company Number: F1134438; Status: Inactive; Dissolution Date: 30 September 2009; Company Type: Foreign Corporation; Previous Names: SECURACOM INCORPORATED (**Dulles International Airport, alleged origin of Flight 77 that allegedly hit the Pentagon.**)
- Foreign corporation registrations by Defendant Stratesec in other states include in alphabetical order Arizona, California, District of Columbia, Georgia, Massachusetts (**Boston Logan International Airport Flights 11 and 175**), North Carolina, Pennsylvania, Tennessee, Texas and Washington during the same period of time they were being sued over the improper use of Securacom.

Chronology 3: Who really was the WTC Security Company?

- **New Mexico: Los Alamos National Lab, or LANL**
- Company Number: 1697242; Status: Revoked Final; Incorporation Date: 15 November 1994; : Company Type: Foreign Profit Corporation; Jurisdiction: New Mexico (US); Branch: Branch of STRATESEC INCORPORATED (Delaware (US): Inactive Directors / Officers: BARRY W MCDANIEL, director; C T CORPORATION SYSTEM, agent, 15 Nov 1994; CHARLES W ARCHER, director; JAMES A ABRAMSON, LT GENERAL, director; MARVIN P BUSH, director; MCDANIEL BARRY W, president; MISHALY S. SABAH, director; NONE LISTED, secretary; NONE LISTED, treasurer; ROBERT B SMITH, JR, director; THOMAS RONALD C, vice president; **WIRT D. WALKER, III**, director.
- The New Mexico foreign corporation registration was about 9 months after the February 26, 1993 bombing of WTC 1 North Tower failed to bring the building down.
- Molten metal was flowing out of a WTC tower. Jet fuel or raging high-rise fires cannot do that. Clean up crews found pools of molten steel in the rubble pile.
- Only thermitic reactions can turn structural steel to molten state or weakened by slow thermitic reaction. LANL was focused on thermitic reactions and the Bush family directly involved in LANL security.
- All Stratesec dates predate the use of Securacom.

Chronology 4: Who is Donald C. Canestraro

- Mr. Canestraro was an investigator with Office of Military Commissions. He conducted interviews with FBI and CIA persons 2016 to 2021 regarding prior to and after September 11, 2001. His 774 line Declaration is very revealing even though he was going to extremes to protect “CS” as confidential sources.
- <https://www.floridabulldog.org/wp-content/uploads/2023/04/Canestraro-Declaration-dated-20-July-2021.pdf>
- His Declaration is not Classified unless attached to a document referred to as “AE827”.
- This footer is on every page. “UNCLASSIFIED WHEN SEPARATED FROM AE827 (AAA WBA) – CUI”. The Plaintiffs are going after an unredacted copy of the document.
- His investigation uncovered that the CIA was illegally involved on US territory with Saudi GDI Los Angeles office [General Directorate of Intelligence] attempting to recruit “radical Islamic males” to “fly jets” for a false flag cover operation. He also established that CIA was withholding crucial information from the FBI.
- Chapter 5 of the Schwarz book addresses the “anthrax attacks” on 3 Democrat leaders in Congress one week after September 11, 2001 on September 18, 2001 that left many very ill and 5 dead. The key suspect was never added to the list of suspects. FBI covering up terrorism against Congress.
- Chapter 7 of the Schwarz book reveals a fake FBI “Saudi Dirty Bomb Suspect” in 2003. FBI conducting terrorism against US citizens with fake alerts on every major TV network.

Chronology 5: Why was Securicor, now G4S, not worried about the post 9-11 lawsuits by about 30 families? Securicor did not control all security check points at Boston Logan International Airport. Apparently Bush controlled Stratesec or some other unnamed company controlled the key ones where Flight 11 and Flight 175 supposedly took off, headed to NYC and hit WTC 1 and then WTC 2.

- The following is an excerpt from the lawsuit draft:
- “After 9/11, Securicor, currently named G4S, not to be confused with Bush Stratesec and fake ID Securacom, faced about 30 lawsuits from victim’s families. Another director that Condon supervised at Securicor, former Group CFO Trevor Dighton, said of the company’s liability – **“I’m not worried about it (the litigation) one little bit. The two planes involved weren’t those that crashed into the towers – that’s the first thing.”** [emphasis added]. Refer to Exhibit A and Exhibit B.”
- The WTC towers were not hit by the alleged Boeing 767 jets from Boston Logan International Airport. That was part of The Official DC Lie.

Exhibit A

The following video was recorded on September 11, 2001 by a Canadian bank executive who was in NYC on business for his Toronto employer. He was located and 2 video tape copies of his camcorder video were made and analyzed. Twenty-two still photos were made by advancing the video less than 1/10th of a second per frame. This is the closest video to either jet aircraft impacting WTC 1 North Tower or WTC 2 South Tower. On the left is Rector Place, on the right Marriott Downtown.

On December 2, 2011, copy 1 of the video was stolen during a robbery in Berlin Germany and CIA was named in the police report due to 1 CIA person being recognized at the scene. In November 2012, the second video still photos were also stolen. The person having it was found murdered in her home, money still in her purse, the video and still photos were gone.

This is not a Boeing 767 jet from Boston Logan International Airport as claimed by the US government.

Exhibit A

The following still photo is not one of the photos from WTC 1 North Tower or WTC 2 South Tower mentioned in the previous slide. Someone else posted the previous impact video and this still frame photo. The US government claimed that Flight 11 hit the North Tower and Flight 175 hit WTC 2 South Tower. Both statements were US government lies.

Exhibit A

The following still photo was shown on US television. This is not the same jet aircraft shown in the first 2 slides of Exhibit A.

Exhibit A

The following still photo was shown on US television. This is not the same jet aircraft shown in the first 2 slides of Exhibit A.

As of September 11, 2001, the width of each outside wall of the WTC Towers was approximately 208 feet. The wingspan of a Boeing 767 was 156 feet, which is 75% of the width of the WTC exterior walls. What hit the WTC Towers was approximately 50% of the width of the WTC Tower exterior walls. The wing span of a Boeing 737 was 112'-8", 54% of the width of the exterior walls of WTC 1 and WTC 2.

Exhibit B

The following photo is the combustion chamber of a Boeing 737 jet engine. Full analysis of the camcorder video and still photos confirmed the impact jet was a Boeing 737, not the alleged Boeing 767 from Boston Logan International Airport. Note the size to the partial view of the man on left side of the photo.

Exhibit B

The following photo is a 737 jet engine at the Boeing plant in Renton Washington. Note the size of the combustion chamber and the man in the photo.

Exhibit B

The following photo is a Boeing 767 jet engine. Note the size of the combustion chamber and the man visible in the photo. The jet engines of a 737 and the high bypass fans of a 767, 777, 787 are different technology and engineering.

Exhibit C - Pentagon

The alleged Flight 77 from Dulles Airport, a Boeing 757. The following photo was taken at the Pentagon on September 11, 2001 and sent that night from home asking for identity as to what this is. The laminated blast proof glass is not from any vehicle that was at the Pentagon on September 11, 2001, nor is it from any Boeing 757 ever built.

The laminated glass is from a Cold War military jet named the A3 Skywarrior. The Pentagon had 2 still in inventory, operating condition unknown; a US defense contractor had more than 2 that had been completely renovated and upgraded.

Exhibit C - Pentagon

The alleged Flight 77 from Dulles Airport, a Boeing 757. The following photo was taken at the Pentagon on September 11, 2001. This is not from any Boeing 757 ever built.

Exhibit C - Pentagon

The alleged Flight 77 from Dulles Airport, a Boeing 757. The following photo was taken at the Pentagon on September 11, 2001. This is not from any Boeing 757 ever built.

Exhibit C - Pentagon

The alleged Flight 77 from Dulles Airport, a Boeing 757. The following photos on the left were taken at the Pentagon on September 11, 2001. The rotor head of the jet turbine and the fan blades are not from any Boeing 757 ever built. The photo in the center is inside a US company that repairs jet turbine blades for the US military. The photo on the right is a CIA private air force maintenance center. He is servicing what appears to be a Boeing 747 jet engine but on the left is upgraded and newer version of the center photo.

Exhibit D

The alleged Flight 77 from Dulles Airport, a Boeing 757 that hit the Pentagon. A US defense contractor purchased a private fleet of A3 Skywarrior jets. There is not a single component on an A3 Skywarrior that is on any Boeing 757 ever built. It is 1950s-1970s technology versus 1990s technology.

Exhibit D

The alleged Flight 77 from Dulles Airport, a Boeing 757 that hit the Pentagon. A US defense contractor purchased a private fleet of A3 Skywarrior jets. There is not a single component on an A3 Skywarrior that is on any Boeing 757 ever built. The fan blades and rotor hub are used on this type of jet aircraft, not on a Boeing 757.

Exhibit D

The alleged Flight 77 from Dulles Airport, a Boeing 757. What was found on the Pentagon lawn is immediately above the windshield on pilot side. There is a mirror image canopy skylight on co-pilot side. None of the windows or canopy pieces are from any Boeing 757 ever built.

Exhibit E

“It will be sufficient to say here that no tall structural steel building has ever suffered global collapse, either before or after 9/11, for any reason other than controlled demolition. [emphasis added]. On 9/11, the official account says that there were three such instances due to minor low heat fires – all on the same day and in the same place. That is a very suspicious record that cannot be ignored when looking at all of the other factors” [The foregoing is a statement of fact from a lawsuit being prepared.]

The photo is inside a WTC tower. The cardboard boxes “BB 18” are devices used in controlled demolitions.

Summation Facts

1. John Farmer was former Attorney General of New Jersey and senior legal advisor to Christine Todd Whitman while she was Governor of that state. Bush appointed her as Administrator of EPA and she lied about the “air quality” issues post 9-11, sans any mentions of “asbestos”. Christine Todd Whitman apologized in 2016 but still did not mention the asbestos.
2. The 9-11 Commission was stacked and racked to fail. Executive Director Phillip Zelikow was author of the “Bush Pre-emptive War Doctrine” based on September 11, 2001. Chairman Thomas Kean directly in bed with Saudi controlled Delta Oil in Delta-Hess joint venture, and Delta was a key a defendant in Bridas v Unocal, Delta Oil in Texas and at 5th Circuit. Richard ben Veniste law firm directly representing Turkmenistan, Turkmenneft to blockade or crush Bridas so Bush-Blair could steal the pipeline from Bridas with military force. US District Court Houston, Fifth Circuit US Court of Appeals and SCOTUS.
3. John Farmer is the only known insider that spoke the truth.
4. What is disgusting is Bush and Tony Blair knew in 2002-2003 that the China-Pakistan CPEC had them blocked while the 9-11 Commission deliberated to August 2004.
