Part 4: More reasons to not investigate 9-11

Pop Goes the Bush Mythology Bubble: Part 4

Online Journal

Karl W. B. Schwarz

January 14, 2005

The dreaded "**BMB**" (*Bush Mythology Bubble*) surely ranks right up there with the dreaded WMD, as in W's Mass Deception.

An interesting comment from a former CIA employee, **Michael Hasty**, years ago sums up why we have people digging for the truth and some of them being eliminated such as recently happened to Gary Webb: [**See Postscript 1.}**

"Whenever I hear the words "conspiracy theory" it usually means someone is getting too close to the truth."

The article is about a fourth open letter to **Eliot Spitzer**, Attorney General for the State of New York and **William Casey**, Chief Investigator for the Attorney General's Office. In fact, the letter has been hand-delivered to Mr. Spitzer's office. In addition to that, on December 28, an associate and myself delivered an intelligence file that was delivered to a friend and then delivered to me. That file has now been delivered to Spitzer and Robert Morganthau, Manhattan District Attorney.

It is hoped that the "checks and balances" between the New York State attorney general and the Manhattan district attorney might assure that someone in New York does their job. We have been advised that Spitzer's office does not have jurisdiction over the nearly 3,000 murders that occurred at the World Trade Center (WTC) on September 11, 2001, however, Mr. Morganthau's office definitely has jurisdiction over that matter. If one looks at 9-11 as part financial scam and part mass murder to effect political objectives, we might just need both offices working on this one.

As far as our group is concerned, they can sort that out amongst themselves (jurisdiction that is) and someone do their job in America for a change when it comes to justice.

The intelligence agency file is the primary reason for this Part IV and why there has been a slight delay in its release following the Part III of *Pop goes the Bush Mythology Bubble*. We wanted Spitzer and Morganthau to have it before this article appeared as additional information to support what facts are being disclosed in Parts I through VII of this series.

This intelligence file, one that has been suppressed by our government as they have suppressed all other matters relating to 9-11-2001, has names, banks, account numbers, wire transfer instructions, security codes, and more information to clearly show who was involved in a $120 billion debt due and that debt was definitely due in September of 2001. It did not get paid, and had it been paid, our information shows that a ring of robber barons would have been exposed to be misusing fake gold collateral certificates to borrow money under false pretenses (very large sums of money at that) and then never repay it. In short, had it been paid, they were caught red-handed.

That the "legitimacy" of such bogus instruments directly involves some in our government is something that we citizens of the United States need to address and purge them from the government once and for all, and even purge them from the markets that drive such greed based on deception and false documentation that has the appearance of legitimacy and color of law.

They are on the public payroll to serve the public, not break any law they please at a whim and line their pockets with monies that are not rightfully or legally theirs to lay claim to.

One read through the file we delivered to Spitzer and Morganthau's offices makes it clear that some folks are using "color of law" and elaborate international "nesting doll arrangements" to frustrate being discovered, and if discovered, frustrate jurisdiction, venue and forced disgorgement of their ill-gotten gains through litigation remedies. Such are white-collar criminal cabals they just hate to have to surrender what they have stolen, once they have managed to steal it.

If you do not know what "nesting doll arrangements" are, you might want to read my book ‘One-Way Ticket to Crawford, Texas’ and get an education in that area and who is doing it to this nation and you. Both Enron and Global Crossing were nesting doll arrangements just to give you a brief example of what to expect and what the end results are.

It is what those funds are being used for that are rather problematic, for it appears to be a means to take over the assets of others, like gold, mineral resources, banks and central banks of multiple nations, and, of course, oil, natural gas and lots of it. In fact, it appears that such bogus gold certificates are being used in some interesting ways by certain Wall Street and Washington types to artificially prop up the U.S. economy to cover up the fraudulent numbers.

Said another way, our true economic condition might be much worse than any of them are admitting and a full investigation into what is written about in this Part IV is way overdue as to exposing this gang of financial terrorists.

There has not been enough in our major media about these illegal gold certificates, of which there are reportedly over $10 trillion in circulation at this time. By any definition, $10 trillion in fraud is a massive amount of fraud. It was comforting to know that Spitzer's office is aware of such and a special team is in fact focusing on that fraud. How that fraud ties into 9-11 is something that we have followed since before 9-11.

One of the things the Fourth Estate (i.e., the major news media) has become very adept in is aiding and abetting our government in creating, promoting and maintaining the mythology that they want all of us to believe. Interpol (Philippines) and the Central Bank issued warnings as early as 1988 that such fake certificates were flooding into certain market sectors and skewing both real numbers and economic performance.

Hmm, **George H.W. Bush** was president during that time and Master Bush wants to slap Top Secret on all matters regarding the past deeds and misdeeds of his family. A 10-year deal is done in 1991 based on bogus gold certificate collateral and is due in 2001. You do the math.

This article is another point-by-point "their government mythology" versus "our citizens alternate facts" that they do not want you to read, or hear, or even think about. If you want the "distraction du jour" rather than the truth, this is a free country and you have the right to be uninformed.

We have some folks actively working right now to try to take over the world and our beloved United States and turn it into the Fourth Reich, so wake up and heads up.

For example, we have all been told that "19 dastardly Arabs, mostly Saudis" trained at multiple places around the U.S. to fly the jets into WTC I and WTC II and the Pentagon. That may well be a myth and part of an intentional attempt to create obfuscation, hide trails, motives, create justifications for "new government policies," etc.

You will learn in Part V that the "9-11 doers" probably trained in Canada (not Florida) and took advantage of technology developed in that nation that was in place in New York and in planes used in war games between the U.S. and Canada. The name of 9-11 Commission member John F. Lehman surfaces in Part V and it also apparently surfaced in the documents we just handed over to Spitzer and Morganthau and cited herein, so if you are not paying attention yet it is time you did start paying very close attention.

One of the documents out of Germany clearly cites "per instructions of Mr. Lehmann" and easy enough to misspell. As of the date of the document in question, none of the Lehman family were involved in Lehman Brothers so that trail is not timely and points to a different Lehman. This intelligence file also has copies of FedEx packages that were sent to Alan Greenspan and Nicholas Brady by John D'Aquisto back on August 19, 1991.

With subpoena powers, it would not take Spitzer or Morganthau long to get to the bottom of that matter. We will either get to that point with Mr. Spitzer or some other prosecutor who has jurisdiction over mass murders in New York City or Arlington County, Va.

We hope that Mr. Spitzer is paying attention since the information also disclosed a name that sits on the New York Pension Board and that is a matter that is directly under his jurisdiction and part of why he has been such a nemesis of the Wall Street gangs that plundered all of America and foreigners, too. However, Mr. Spitzer was only interested in what had been looted from the State of New York pension funds and we can all presume that the other 49 state attorneys general have yet to "get it" that what Spitzer nailed Wall Street for they could do so as well.

In Part I and Part II (above) you learned why I am least impressed with the vaudeville show put on by the 9-11 Commission members, eight of which were directly benefiting from Bush War and Bush Energy policy.

Just in case you are wondering why they were playing ‘Where's Waldo?’ on that 9-11 Commission, it is because they are directly profiting from what happened.

They were not looking for the truth, for the truth could impair their bottom lines and the companies on whose boards they sit. The truth could lead to some of them being indicted themselves for misprision of treason, so looking for the truth at the 9-11 Commission was not exactly what they had in mind. Cover up and recommend stiff "anti-freedom" measures to keep American citizens in their place is more akin to what they had in mind.

For Christmas 2004, I did something quite different in that I traveled to Missouri to meet with a contact on the 9-11 matters and then proceeded to Iowa into the teeth of that nasty cold front that buried Indiana and Ohio under so much snow. We then headed to Connecticut to celebrate Christmas but also to check into some public records that fits the trails we have been following since well before 9-11.

In Iowa, I had the chance to meet face to face with some people that have an interesting contract, one that clearly is theirs, is clearly not the property of Bush or Clinton or their minions and stooges, and saw plenty of evidence that other parties have engaged in some very questionable business matters, including some that may or may not have a direct bearing on why 9-11 happened.

I now have in my possession evidence, and sent it out overnight to 10 other secure sources to protect the information, that a 10-year Brady Bond deal was being worked on and closed toward in the end of 1991, or was to have matured and been due somewhere on or after September 11, 2001.

If you missed it, Part III was just the prelude to what you are about to read and we now have documents to show that in all probability someone has a lot of very nasty questions to face as soon as we U.S. citizens raise enough stink to get a grand jury seated to begin investigating and handing down indictments for criminal prosecution against Americans and specifically relating to their involvement in 9-11.

Part of the story can be found by looking into Securities and Exchange Commission v. John D'Aquisto Securities.

The name of **John D'Aquisto** (convicted) also appears numerous times as do Merkav International and Marion Aiken (convicted), First Guilford Financial Limited, London, but domiciled in Isle of Man where "rule of business law" is somewhat laughable, along with three of its officers Steve Billand, Charles A.M. Duncan, Jeff Muller, and others related to other companies in Russia, Australia, Ireland, the Canadian provinces of British Columbia and Ontario, all patterns to look for in picking up the trails of such scams.

It is the "multi-jurisdiction" facet that makes these deals hard to detect, track and litigate for fraud. It is by design and intent so they can perpetrate fraud and get away with it.

One of the D'Aquisto documents was from a "Bay State Trust" based in Zurich, dated 10 September 1991, and just more of a trail that needs to be fully investigated due to the contents of that letter.

Also cited as one of the main players in this fiasco was Trans Tech International of Washington state and it apparently has ties to Israel. It was represented at that time by one Jonathan Tiede as a "dollar provider" and "account holder" for this $120 billion transaction done in four tranches of $30 billion each and apparently all backed by bogus gold certificates, and $30 billion of the transaction was done in US dollars with what is now suspected to be bogus collateral.

The names of **Goldman Sachs**, vice president of Goldman Sachs Bob Hammond, Security Pacific Bank, Chase Manhattan Bank, Marine Midland, BFZ Bank to Security Pacific Bank transfer instructions, represented by Barrelford Ltd out of Dublin, Ireland, and working in collaboration with a German bank, Hamilton & Huan of Toronto, all appear in the same sets of facts and patterns around a questionable transaction.

One of the documents was even a verification letter from Goldman Sachs' Hammond to John D'Aquisto confirming his account number (027-02088-2) and instructions of what to do with 700 million Japanese Yen and conversion of that into $5 million US dollars, more or less. The Goldman Sachs account statement shows the money going in (credited) and the money going out (debited) and then subsequent correspondence from D'Aquisto demanding to know what Goldman Sachs did with his money.

The names of Robert Rubin (former Clinton Treasury secretary) and Stephen Friedman, Bush appointee as Economic Policy Advisor, also appear in the intelligence file and that same "demand letter" from D'Aquisto to Goldman Sachs.

Another leg of the transaction apparently involved Australia based Contec Development Party Ltd, a Mr. William Sommerville and the USSR province of Yakutsko, an area rich in gold ore deposits and mining. It was noteworthy that the middlemen and attorneys for this were in British Columbia and Toronto, both being very distant from the Russian province and Australia.

One of the letters and facsimiles even discloses that Ariel Life Systems, a NASA contract company, is the parent of DFG, Inc. (John D'Aquisto's company), and a City National Bank facsimile with wire transfer information for its Beverly Hills branch and San Diego branch dated September 13, 1991 about 10 years before 9-11-2001.

The following is from one of our sources, a person who spent many years working for the U.S. Treasury investigating and detecting "Trojan Horses," which are in effect very large financial transactions intended to defraud or do harm.

The name of 9-11 Commission member **John F. Lehman** surfaced in Canada in a failed or aborted takeover bid of **MDA** (*MacDonald, Detwiler & Associates*), a defense contractor.

"I think WTC#7 was the command and control center for the New York end of the securities and life insurance scam triggered by 9/11".

"The WTC#7 tenants include IRS, SEC, CIA probably equipped with PROMIS and Salomon Smith Barney, the Citigroup broker in the WorldCom scam with a $2.65 billion class action suit paid out to lead plaintiff New York Common Retirement System with a trustee in the CIA group controlling MDA.

"Also surfacing in investigating Canadian companies were CAI special investor in MDA RICHARD S. BRADDOCK CAI NEW YORK: Former President of Citicorp (a "Tier 1" bank in CAI's sabotage of Enron shareholders). CAI's Citigroup, formed by the 1998 merger of Travelers and Citicorp, will pay a $2.65 billion settlement to investors in WorldCom (including the New York State Common Retirement Fund, the lead plaintiff advised by Braddock's CAI colleague, Graham Harrison) who had accused Citigroup of financial fraud in the largest bankruptcy in history.

CAI's Citigroup financed the Chad-Cameroon pipeline and China's Three Gorges dam as part of CAI's plan to control global oil & gas and energy markets.

"Note: CAI special investor in MDA GRAHAM O. HARRISON - COTUIT, MASSACHUSETTS, Former President of the U.S. Steel and Carnegie Pension Fund and member of the Advisory Committees of the New York State Common Retirement Fund (CAI will control global public services by taking global custody of the superannuation, pension and insurance funds of a nation's public servants, including its politicians, judges, police and armed forces)."

It would not take Spitzer or Morganthau, who have subpoena powers, long to get to the bottom of that matter and in Part VI there is more on this specific matter.

We have suggested that Mr. Spitzer have a talk with Mr. Harrison regarding his name being tied to CAI and MDA. In Part VI you will better understand why.

Let's all go to Afghanistan post 9-11, kick the crap out of the Taliban and Bridas Corporation and take that pipeline away from them. For the record, neither the White House nor the 9-11 Commission nor any member of Congress have admitted that an Argentina based oil and gas company named Bridas Corporation had beaten US firms to the contracts with Turkmenistan, Pakistan and Afghanistan and our U.S. government and Big Oil influence pimps did everything in their power to take it away from them.

Stop and ask yourself, short of 9-11 happening, what could George W. Bush have said to you to justify attacking Afghanistan that you would believe? I cannot come up with one thing, so if you do please feel free to let me know what you think Bush could have said convincingly.

They want all of us to look at 9-11 as some Arabs using jets as "WMD bombs" to attack the United States and word has now leaked out that some of these terrorist could hardly drive a car with competence, much less fly a 767 jet airliner with precision. I submit that those two jets were not missiles, they were just as easily bullets fired by a "financial terrorist sniper" and someone was behind that gun that fired those bullets and the person or persons are not named Osama bin Laden.

Now, what Washington, DC, and the 9-11 Commission want you and me to think is that some dastardly Arabs working for Osama bin Laden planned all of this, financed it and executed it, but that is not necessarily the truth, that may be a myth. Remember, even Sun Tzu in his ancient work, 'The Art of War', taught that all warfare is deception and the first casualty of war is the truth.

Even George W. Bush knows that, and you can bet Karl Rove and Karen Hughes know the axiom well.

I keep reminding folks to back up and pay attention to what FBI Translator **Sibel D. Edmonds** made public and that *Bush, Cheney and Ashcroft slapped a gag order on her immediately.*

She found and pay close attention this time if you did not last time or this is the first time you have heard what she found inside the FBI,

"drug trafficking, money laundering, foreign names and AMERICAN NAMES involved in the financing of 9-11."

Sibel Edmonds is not fluent in Arabic. She is fluent in Farsi (Iran), Turkish (her mother) and Azeri (her Azerbaijani father), and English. What she found was not in Arabic notwithstanding the Bush and Ashcroft insistence that her "Arabic translations" regarding Osama bin Laden, attack on the U.S., and jet airplanes, which for the record are not even germane to the translations that Sibel Edmonds did find.

What Sibel Edmonds found was not from "counter-terrorism" but rather from ongoing FBI investigations into drug trafficking and money laundering by certain foreign and American persons.

Then from another source we learned that there was a transaction due to close on 9-11 or 9-12-2001 involving payment of $120 billion. That payment it seems was problematic because the payment would have been prima facie evidence of a criminal fraud in progress relating to Brady Bonds and bogus gold instruments of which there are reportedly now over $10 trillion of such instruments floating around the world markets.

The documents for that closing were reportedly housed in WTC I, and, gosh, that company took a jet airplane right in the face. Consider that, and consider that no one is that lucky.

My sources inform that Cantor Fitzgerald was the underwriter / bond trustee on the $120 billion payment that was due. It may have been another firm, but my sources say Cantor Fitzgerald, WTC 1, 101-105 floors. Also, *INTER AMERICAN INVESTMENT CORPORATION* is the vehicle that has been used to float the bogus gold contracts and that entity is both a Reagan administration creation and still closely tied to George H.W. Bush.

It was also noted that *Global Crossing Holdings Ltd*., that well known telecom fraud that fleeced global investors of billions, was on the 83rd Floor of WTC 1, but that and the fact that former CEO of Global Crossing Lodwrick Cook being on the board of the GHWB Presidential Library is a separate story.

With subpoenas, it would not take Spitzer or Morganthau long to get to the bottom of that matter. There is a group that has been placing bogus gold certificates and doing so in very large numbers, over $10 trillion, according to our source, and an independent gold trading source verifies that as well. According to them, it is JP Morgan Chase that is sitting on those "not performing at this time" bogus gold certificates, contracts, leases, etc., that were issued under the moniker of *Inter-American Investment Corporation* ["**IIC**"] and *Global Alliance Investment Association* ["**GAIA**"].

What they are doing is using the Peru Bonus 3392-181 mentioned below that does not belong to either IIC or GAIA to achieve this bogus and illegal end.

BRADY BONDS-1991 BANK FAILURES "UPDATE"

SECURITY AND EXCHANGE COMMISSION v. D'ACOUISTO FINANCIAL GROUP, INC., et al. Civil Action No. 95-1105H (AJB) (S.D. Cal.)

This Case, makes no mention of GOLDMAN SACHS etc., and those involved in the 1991 transactions that were for a "10 year term" ending on or about 9/11/01.

The account numbers, names, banks, bank officers, transaction codes involved with Mr. D'Acquistos' group, further involving NICHOLAS BRADY, Alan Greenspan and later Sec. of the U.S. Treasury Robert Rubin of GOLDMAN SACHS the "Underwriters."

The amount involved in this transaction was "non authorized use of the Gold Collateral Interest (U.S. Debt) on BONUS 3392-181.

We were only provided who was on "one side of the transaction" but getting the information on the other side those that owed the $120 billion that blew up along with WTC 1 can be determined.

Just a matter of time and subpoena powers that **Eliot Spitzer** and **Robert Morganthau** have that we do not have.

The following 8 paragraphs in parentheses are part of a transcript of one of the principals and title holders of Bonus 3392-181 and was stated in my presence in a recorded face-to-face discussion.

“If you are talking about the BRADY BONDS these are only 1/2 underwritten by Treasury. Neither Russell nor I authorized the usage of our Collateral. Bush used his EXECUTIVE POWERS in CONFLICT OF INTEREST and ABUSE OF POWERS to get this crap done.”

“I believe you should be talking to GERMANY'S SCHROEDER BANKING and FRANCE'S "CHIRAC" ABOUT CREDIT LYONAISE along with THE JAPANESE BANKERS who all, without exception went down over this mess. Credit Lyonnaise took a major hit HAD A BIG FIRE, RECORDS WERE BURNED. They discovered a second set of books in their warehouse and I'll be dammed if that did not burn also.”

“You will find GEORGE SOROS heavily involved on the CLINTON-MARC RICH-ISRAELI side. George has always loved to brag about taking down the BANK OF ENGLAND over this mess.”

“These are the Treaties and International Agreements THAT DO NOT EXIST. This was the SET UP of the MULTILATERAL INTER-AMERICAN INVESTMENT CORPORATION and THE INTER-AMERICAN DEVELOPMENT BANK.”

“The IAIC and IADB were allowed to be incorporated by RUBIN and GREENSPAN after THE CLINTON CFR entered into the agreement to bankrupt the U.S.”

“Treasury and U.S. Fed. R., use CHINA (reason for all those John Wang-Wong Coffee Klatches) for the movements of monies on the "counterfeit" Bonus "Certificate" 3392-181 operation.”

“This "oil" stuff is part of what the counterfeit instruments were allowed by CLINTON'S CFR for. I have been told by the QUEENS BANKER IN CANADA, THE KING OF JORDAN'S BANK REP. AND OTHERS INVOLVED "Many of the Counterfeit were used to purchase OIL CREDITS.”

“This is the little "jewel" used by THE BILLIONAIRE BOYS CLUB (Bush Cartel and Clinton Cartel), which intended to "TAKE OVER THE WORLD" ... which, believe it or not OPERATED OUT OF THE ONE WORLD TRADE CENTER and "members" were charged $5,000 per share. We bought $20K in shares, because "NO ONE COULD DO ANY BUSINESS INSIDE OR OUTSIDE THE UNITED STATES IF THEY WERE NOT A MEMBER"

Now you know why the WTC'S went down...

DISCERNING MINDS, can easily connect the "dots" between the 10 years between September 12, 1991 and the September 11, 2001 incidents.

It would not take long for Spitzer or Morganthau to get to the bottom of that matter.

As our facts came together, I made calls to Eliot Spitzer's office, the office of the Manhattan District Attorney and the Prosecuting Attorney of Arlington County, Virginia, to inquire as to who in each of those offices was investigating the crimes committed on September 11, 2001. The response of all three of those offices can be summed up thusly: "We are not investigating 9-11, the feds are."

Yeah, right! With feds not investigating themselves and their wealthy elite contributors, that means no one is investigating 9-11, except citizens of this nation that do not buy off on the lies of Washington, DC, any more, and DC has no one to blame for that but themselves and their demonstrated "difficulty with the truth" in our nation's capital.

The U.S. government has their mythology and I have just presented you facts that are on the table, they are undisputed and they are unanswered. They were not looked into by the 9-11 Commission, for that would have meant looking into the conduct of some of the 9-11 commissioners first and they have a lot riding on this New World Order and the Global War on Terrorism fable of George W. Bush.

See Part I and Part II of this series of *Online Journal* if you missed those. These matters have not been looked into because someone is in very deep trouble if the above technology out of Canada, the above $120 billion that was apparently due, were motives for all of that took "intent, aforethought, planning and premeditation to commit genocide, mass murder" and even treason against the United States meaning against each and every one of us.

I do not have subpoena powers, but Eliot Spitzer and Robert Morganthau do and some, if not all of the above facts and sets of circumstances warrant being looked into. Either Spitzer or Morganthau are welcome to everything we have on 9-11 matters and the RICO investigations that led to the facts that are presented in my book.

The US government has put their mythology on the table and apparently many (89 percent in a CNN poll) are not buying it. The foregoing may or may not be true, who knows?

It has yet to be investigated as to how the trails all started converging on 9-11 and New York City without having to guide them that way might be very telling.

Postscript 1: In 2004 after the release of the Karl Schwarz book "One Way Ticket to Crawford Texas" a series of fast acting events happened. First, a scared and threatened air traffic controller contacted Schwarz from a relative's phone in another state because they feared their phones were tapped. This ATC revealed that the Boeing 767 jets took off and turned to the East as if heading to Europe, they did not head towards NYC and WTC. They both disappeared from the radar screen before being out of range.

Second, the official photographer of the WTC reported that he was in the WTC 1 offices of Emory Roth Architects. Federal agents came and confiscated all of the plans and specifications of the WTC complex, and that included WTC 7 as well. Since the US government did not step in and help solve the PANY&NY asbestos problems at WTC, the only possible conclusion is they wanted the plans and specifications for a controlled demolition made to look like a terrorist attack. There is other evidence that supports that conclusion.

Third, a man who worked with a scared woman contacted me. Her husband was on flight that departed Kosovo less than 1 hour after WTC 7 was brought down by a known controlled demolition. On that flight were large crates and destination Turkmenistan. Those crates were then unloaded and loaded onto Chinook helicopters and flown into Afghanistan days before George W. Bush pointed the finger of blame at that nation. After his job was done with UNMIK (UN Mission in Kosovo), they returned to the US, he took a job with Blackwater USA and was killed in Iraq. While he was still alive, he told his wife exactly what he saw when those crates were opened in Northern Afghanistan. The contents were hundreds of millions of US dollars delivered to a man that had signed an agreement with an Argentina company for a major pipeline across Afghanistan and the Taliban had also agreed to allow the pipeline. The details about that Kosovo flight, the UNMIK person's name and other details were released February 12, 2005 as "Pop Goes the Bush Mythology Bubble, Part VI". This sixth article of 7 had a byline: "This world is led by 4-star clowns, liars and frauds".

In a completely separate incident, that happened on September 11, 2004 at Jimmy Walter's event "9-11: Confronting the Evidence", and Karl Schwarz was a featured speaker at that event, a woman approached Schwarz and said she had been contacted by a Canadian banker that was in NYC on September 11. 2001. He was recording the North Tower being on fire when a jet suddenly appeared in his camcorder view just to the East of West Street and slammed into WTC 2, approximately on the 78th Floor. She was going to Canada after the NYC event to get a copy made of what his camcorder saw. She got 2 copies, one for herself and one for Schwarz and they were fully analyzed. The jet was a Boeing 737, not the alleged 767 the US government put on the table and labeled it a terrorist attack.

Before the third panel at "9-11: Confronting the Evidence" was about to take the stage, 2 CIA goons threatened Schwarz with being terminated NYC if he revealed the PANY&NJ asbestos lawsuit that they lost on May 17, 2001. There were 1,286 people in the audience, plus the recording crew, and around 3 million watching by satellite TV. For some reason the CIA was upset that Schwarz might reveal what they knew he already knew about. Schwarz revealed why Bush had entered office with plans to attack Afghanistan and even mentioned the name of who was the recipient of the hundreds of millions of US dollars directly related to that Sept 11-12 flight from Kosovo.

Schwarz moved to Europe on June 1, 2006 for business purposes. There were clashes with CIA in Budapest in 2006, later in 2008 in Vienna, and then on December 2, 2011 in Berlin when Schwarz was robbed, computer case stolen, passport, credit cards, cash, private bank records, and 2 video tapes he kept in his computer case at all times. One video tape reveals a statement made by CENTCOM commanding General Tommy Franks to the Armed Services Committee when asked what his primary mission in Afghanistan was: **"The pipeline and access to the regions resources".** The other video was what hit WTC 2 and reveals it was a Boeing 737. The CIA was cited in the Berlin Police Report because the same man harassing in Budapest, Vienna and then in Berlin was at the scene of the crime. Schwarz knew his face well. On Monday morning December 5 at the US Embassy Citizen Services to get a new passport in process, a woman confided that when Berlin Police called the Embassy, 4 CIA agents were ordered to immediately leave Germany and the EU since it is under EuroPol. Schwarz had his passport in his hand on Wednesday December 7 from Washington DC to Berlin, so basically 1-day service from Washington DC for their CIA screw up.

In November 2012, the woman that approach Schwarz at "9-11: Confronting the Evidence" and got the 2 video tapes of what hit WTC 2 was found murdered in her home by her elderly father because she had not been answering her phone, money was still in her purse but the video and 22 still photos made from that video were gone. A Black male drug addict was arrested, convicted and sent to prison for life. A drug addict would search for money first, not the indictable evidence video and still photos unless the CIA sent him to get the video and still photos.

On January 2, 2025 an incident happened in Yerevan Armenia at 1;35am. An associate of Schwarz was kidnapped at gunpoint as he arrived at the airport for a 5:10am flight to Frankfurt and connecting to Toronto Ontario arriving same day at 1:50pm Toronto time 9 time zones west of Armenia. The airport security had it all on video cameras including the kidnapper, the car and license plate. It took the local police 5 to 6 hours to locate the car, the kidnapper and arrest him and free the Schwarz associate, but he missed the 5:10am flight.

Once freed from the kidnapper, Schwarz and his associate talked via mobile phones. The local police were upset when ordered to release the armed kidnapper because the US government put pressure on the Armenia government to release him. That is usually a sure sign this man is a CIA asset in Armenia.

Once alerted, the Schwarz associate was taken to Batumi Georgia by private driver and was to fly from there on Turkish Air to Istanbul and connect to Toronto Ontario. He called Schwarz in Ontario at 6am and was 3pm in Batumi Georgia to inform he arrived safely and was about to go purchase his ticket to Istanbul to Toronto. He then called his 2 sons. Neither Schwarz nor his sons, who he called every day to every other day, have heard from him since January 7, 2025.

The police in the nation of Georgia have not found any clue or trail yet of what happened to the Schwarz associate. His trip to Canada was to sign a document that would have released $5 million USD to Schwarz and cleared the path for another 64 million Euros for Schwarz to have on his account by the end of 2025.

[**Postscript April 28, 2025:** If you noted that WTC 1 is mentioned several times above and are different entities and trails straight at WTC 1, and dated January 2005, take note of the following. I was the high bidder to take over Global Crossing in US Bankruptcy Court SDNY and even had standing at the FCC during CFIUS review and change of control deliberations regarding the sale of that company to a foreign entity ST Telemedia of Singapore. I had 10.9% of all shares assigned over to me as the White Knight bidder, plus I had Global Crossing insiders who provided me many boxes of documents and insider information that were wrongfully terminated, plus 2 men and I provided evidence to the DoJ Criminal Division and the FBI.

The DoJ and FBI were on the short list with me and due to those 2 men and I. Plus, I provided "hot evidence" to a NYC law firm that got a $286,000,000 Super Priority judgement and that was paid out first ahead of the Bush Bandits that put Global Crossing into bankruptcy illegally. Wall Street was later fined $3.0 billion and Deutsche Bank $3.6 billion for illegal offshore naked shorting of stocks and bonds to force Global Crossing into Chapter 11 bankruptcy. Within their high yield bonds there are debt service covenant default terms that when the stock price hit a certain low threshold the bankruptcy was required. That is how Wall Street predators kill companies for a cheap takeover.

Global Crossing had reached a market cap of $56 billion and was then forced into bankruptcy with illegal naked shorting. The ST Telemedia bid was $250,000,000 and mine was $815,000,000.

I had Global Crossing documents under subpoena as court ordered discovery and they were destroyed when WTC 1 North Tower was taken down on September 11, 2001 in a controlled demolition. Add in that fact plus what happened to Cantor Fitzgerald with one survivor who was not at WTC 1 that morning, you will understand the following.

What triggered that avalanche and urgent rush to get the ST Telemedia deal pushed through is Deutsche Bank was calling many Global Crossing shareholders urgently wanted to "rent" those shares. They made the mistake of calling me and even sent me the "Share Rental Agreement". This is because they had naked short positions and were shorting stocks they had no control over to force the company into bankruptcy. That is illegal in the US but common practice in Canada and some offshore locations. An urgent need to "rent shares" means SEC audit is coming and if not covered major problems headed on such securities fraud.

I even called the Secured Creditors attorneys Millbank Twead and met with them at Chase Plaza. When I slid the Share Rental Agreement across the table like a spinning frisbee and he missed, went into his lap he grabbed it, recognized what is was and demanded to know where I got it. Told him that was his copy, I have the original and the US Bankruptcy Court, DoJ and FBI also have a copy of it. That was a short meeting, I left and took a taxi to the law firm on 3rd Avenue that got the Super Priority judgment. While in the taxi heading North, Millbank Twead was begging me to come back and talk. I told him our talk was over when I left.

The FBI even launched an investigation they named "Operation Bermuda Shorts" and I wrote about that in my book 'One Way Ticket to Crawford Texas'. I chided FBI after their half-assed operation: "Way to go guys, cast out your nets for Great White Sharks and came home with a damned bucket of minnows." Seriously, they did not go after the Bush Pioneers, his biggest political backers that funded most of his campaign. They did nail the Soros predators and he has been "Anti-America" ever since.

The CEO of Cantor Fitzgerald Howard Lutnick and sole survivor of Cantor Fitzgerald NYC, WTC 1 is currently the Secretary of Commerce in the Trump Administration. Mr. Lutnick will be receiving interrogatories, deposed under oath and put on the witness stand in the RICO action my team is preparing that is directed at the defendants and entities that destroyed the World Trade Center.

Even before Mr. Lutnick, Donald J. Trump will be receiving interrogatories and be deposed under oath. When the Court sees the gravity of the issues, President Trump will be required under the same standard SCOTUS set in Clinton v Jones, an 8-0 decision and Associate Justice Stephen Breyer abstained since Clinton appointed him but did file a "Concurrence Memorandum", so basically a 9-0 SCOTUS decision. Executive Immunity does not apply to matters that happened while not sitting as President.

Some folks are starting to figure out I know so much due to where I have been, what I have done and along the way far too much points back at WTC, why it happened, and who did it.]
